Home Photo Protection - File Format Information

You will receive all high resolution digital photos and the reduced-size summary files on a conveniently stored USB WINDOWS compatible thumb drive. As a backup, POV Home Watch will keep a copy for 1-year.

The photos are organized in the following manner:

- The files are WINDOWS compatible. They are NOT write protected. They can be edited and deleted. Care should be taken to avoid lost data.
- Based on the features of your property, your high-resolution photos will be organized into a master directory and grouped by room or area. Each folder will also include a WORD and a PDF summary file.

SAMPLE FOLDER NAMES – BASED ON THE FEATURES OF THE HOME		
STREET VIEWS	LIVING ROOM	BEDROOM #1
OUTSIDE	DINING ROOM	BEDROOM #2
LANAI	DEN	BATHROOM #1
GARAGE	KITCHEN	BATHROOM #2

- The photos which are stored in a high-resolution digital JPG image format are very large. To provide your photos in a format more easily handled, the photos in each folder are also copied and saved into a WORD document. This WORD file is also saved as a PDF file. As a result, a very small thumb-nail summary for each room is generated that can then be easily be emailed.
